Education

JECRC Foundation

Bachelor of Technology in Computer Science Specialisation in AI

Sep 2024 – Present

Jaipur, Rajasthan

Experience

Freelance

June 2025 – Present

Freelance Full Stack And AI-Powered WebApp Developer

Remote

- Built AI-powered voice and text communication workflows that automated customer interactions and Task automation.
- Delivered **7+ freelance projects** for businesses across e-commerce, healthcare, and service industries.
- Developed [binkhalid.in](#) and [kalakratiimagnations.com](#), production-ready e-commerce platforms featuring payments, shipping workflows, email automation, admin dashboards, and real-time order tracking.
- Developed and deployed [dentalcarejaipur.com](#), a production healthcare platform with appointment booking, e-prescription workflows, and an admin dashboard for clinic management.
- Developed and deployed [masteroutdoor.com.au](#), an Australian business website with service pages, quote generation, lead capture, and automated email notifications.

Projects

AdityaOS — Interactive AI-Powered Developer Portfolio [Live](#)

Next.js 14, TypeScript, Tailwind CSS, Gemini and Groq API, Upstash Redis, Spotify Web API

- * Designed and built a fully interactive, OS-themed portfolio featuring draggable windows, a custom terminal, and a multi-app desktop environment
- * Integrated a **context-aware AI agent** (Gemini & Groq API) that answers visitor questions about projects, skills, and hiring availability in real time
- * Implemented a **Redis-backed engagement system** (global like counter with per-visitor rate limiting), Achieved sub-second AI response times using Redis caching and optimized API orchestration.

Luminare AI Voice-Labs — AI Outbound Voice CRM [GitHub](#)

FastAPI, LiveKit, Twilio, Sarvam STT/LLM/TTS, React, WebSockets, JWT

- * Built an **end-to-end AI voice system** that makes real outbound phone calls using Twilio and LiveKit
- * Implemented a real-time voice pipeline **STT → LLM → TTS** with call lifecycle handling (goodbye detection, hangup)
- * Integrated a **React dashboard** and **JWT-authenticated FastAPI backend** for management, automation, and analytics
- * Built **browser-based AI voice assistant** using WebSockets, AudioWorklet, and session management.

Kalakrati Imaginations — Full Stack Ecommerce Platform [Live](#)

Next.js 16, React, MongoDB, Clerk, Razorpay, Delhivery, Cloudinary, Resend, Vercel

- * Built and Deployed a **Production-ready e-commerce** platform supporting 100+ products
- * Implemented authentication, payments, shipping workflows, inventory management, product variants, admin dashboard, email automation, media management, and SEO-friendly routing.
- * Designed **scalable ecommerce architecture** supporting category/subcategory management, dynamic product variants, and order processing workflows.

Varta AI — WhatsApp AI Agent Platform [GitHub](#)

FastAPI, React, LangChain, Twilio, FAISS, Groq

- * Developed an **AI-powered WhatsApp assistant** capable of handling customer queries and booking workflows.
- * Built **RAG-based knowledge retrieval** using LangChain and FAISS to generate context-aware responses from uploaded business data
- * Created a multi-business dashboard with chat logs, knowledge base management, and Twilio WhatsApp integration using FastAPI and React

Technical Skills

Languages & Frameworks: JavaScript, TypeScript, Python, React.js, Next.js, Node.js, Express.js, FastAPI

Databases & Cloud: MongoDB, Upstash Redis, AWS S3, EC2

AI & APIs: Gemini API, Groq API, Vector Databases, RAG, LangChain, FAISS

Tools & Technologies: Git, Postman, Cursor, VS Code, TailwindCSS

Leadership & Extracurricular

Placement Cell Officer, JECRC Foundation.

Coordinated outreach and operations activities for placement initiatives and student engagement.

Best Character Award, JECRC Fresher's Party 2024
